- **\*\*\*New for 2022** – National registration will use a new Auto Flight Selection process.
  - The Auto Flight Selection process will run between the end of pre-registration and the start of full registration.
  - During pre-registration schools will pick flight preferences.
  - Flights will be auto selected for each school based on tiers and flight preferences entered during pre-registration.
  - Each school will have an opportunity to review selected flights before full registration and change/add/drop flights during full registration if needed **and as space permits**.
  - Schools will be financially responsible for all flight positions **assigned and not dropped** by the drop by date.
  - The Auto Flight Selection process will assign all archers to the NASP® bullseye flights first. It will then assign archers to the NASP®-IBO 3D flights ensuring that there is a minimum of one flight spacing between flight times for Bullseye and 3D flight times.
  - For more information on Auto Flight Selection visit <https://www.naspschools.org/wp-content/uploads/AutoFlightSelection.pdf>
- Only schools that select flight preferences during pre-registration will receive flight selections during the auto-flight selection. **It is critical that a school selects ALL flight times that they are willing to accept.**
- **All pre-registered Individual qualifiers (top 10 in the State Tournament) but will be guaranteed a position and assigned to a flight position. The flight time assigned may not be one of your preferred/selected times.**
  - Individual qualifiers registered as part of a team group (elem/middle/high) do not need to be registered as individuals
  - Individual qualifiers registered as part of a team group (elem/middle/high) will be assigned a flight position.
