

PERMIT INFORMATION FOR SCHOOL SITE-PLAN REVIEW

Michigan.gov/EGLEpermits

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) has prepared a list of key questions to help identify what EGLE permits, licenses, or approvals may be needed for a school construction project. By contacting the appropriate offices indicated, you will help reduce the possibility that your project or activity will be delayed due to the untimely discovery of additional permitting requirements later in the construction process. While this list covers the existence of permits and approvals required from EGLE, it is not a comprehensive list of all legal responsibilities. Please call the Environmental Assistance Center at 800-662-9278 to talk with any of the EGLE programs noted below.
